

## Miracle Mills 300 Series Hammer Mill

Available in models of various sizes with drives ranging from 22 to 75 kW.

- ❖ **High Performance** – heavy duty hammer mill.
- ❖ **Grinding Flexibility** – rotor speeds and screen sizes maybe changed to suit reductions required.
- ❖ **Simple and Rugged Construction** – heavy-duty cast iron base section with fabricated upper body, high-speed industrial bearings and hardened steel alloy hammers.
- ❖ **300 Series Hammer Mills** – can be supplied as either gravity or a suction version with a remote system fan.

### Typical applications for 300 Series Hammer Mills:

**Wood off-cuts, chips and pellets**  
 Palm kernel  
 Cotton seed (**both linted & decorticated**)  
 Olive pulp nuts  
 Straw  
 Plaster  
 Circuit boards  
 Paper  
 Sugar  
 Cereals  
 Spices  
 Pasta  
 Grass  
 Linseed  
 Peat... **plus many others**

Machine Sizes	No.2	No.3	No.4	No.5	No.7
Typical Power Requirement	22 kW	30 kW	45 kW	75 kW	90 kW

**Machine capacities will depend upon material input size, required fineness, moisture or oil content, system design and control.**
