

Sturtevant Roll Jaw Crusher 50 x 150

For Laboratories or small scale production plants.

- ❖ **Roll Jaw Crusher** - well proven design used World wide for the reduction / crushing of materials.
- ❖ **Efficient reduction** – of materials down to approximately 500 micron.
- ❖ **Features**
 - Rugged construction.
 - Front opening door allows for easy cleaning.
 - Cam operated jaw produces two forward movements for each revolution of the shaft.
 - Drive configuration by electric motor and vee belts

Typical applications for **Roll Jaw Crushers** :

Typical materials...

Basalt
Brick
Chrome ore
Cinders & clinker
Ferro manganese
Ferro titanium
Glass
Granite lime
Magnetite
Manganese
Pyrites quartz
Silica rock ... plus many others

Machine Size	50 x 150
Typical Power Requirement	1.5kw

Machine capacities will depend upon material input size, required fineness, moisture or oil content, system design and control.
